Reliance

Forward-Looking Statements

This presentation contains certain statements that are, or may be deemed to be, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may include, but are not limited to, discussions of Reliance's: industry and end markets; business strategies; acquisitions; expectations concerning the Company's future growth and profitability; ability to generate industry-leading returns for its stockholders; future demand and metals pricing; results of operations; margins; profitability; taxes; liquidity; cash flows; capital expenditures; expectations for and impacts from macroeconomic conditions, including inflation and the possibility of an economic recession or slowdown; anticipated effects from regulations and regulatory changes, including taxation, tariffs and other trade barriers; litigation matters and capital resources. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could," "would," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential," "preliminary," "range," "intend" and "continue," the negative of these terms, and similar expressions.

Forward-looking statements involve known and unknown risks and uncertainties and are not guarantees of future performance. Actual outcomes and results may differ materially from what is expressed or forecasted in these forward-looking statements as a result of various important factors, including, but not limited to, actions taken by Reliance, as well as developments beyond its control, including, but not limited to: changes in domestic and worldwide political and economic conditions; changes in U.S. and foreign trade policies and programs, including tariffs and trade policies and programs specifically affecting metals product markets and pricing; slowing economic growth, inflation, rising unemployment or other macroeconomic factors that could materially impact Reliance, its customers and suppliers; metals pricing; demand for Reliance's products and services; the possibility that the expected benefits of government contracts, including the U.S. border wall project, acquisitions and capital expenditures may not materialize as expected; and the impacts of labor constraints and supply chain disruptions. Deteriorations in economic conditions, including as a result of tariffs or trade barriers, economic policies, inflation, economic recession, slowing growth, outbreaks of infectious disease, or geopolitical conflicts such as in Ukraine and Iran, could lead to a decline in demand for the Company's products and services and negatively impact its business, and may also impact financial markets and corporate credit markets which could adversely impact the Company's access to financing or the terms of any financing. The Company cannot at this time predict all of the impacts of domestic and foreign tariffs and trade policies, inflation, product price fluctuations, economic recession, outbreaks of infectious disease, or geopolitical conflicts and related economic effects, but these factors, individually or in any combination, could have a material adverse effect on the Company's business, financial position, results of operations and cash flows.

The statements contained in this presentation speak only as of the date hereof, and Reliance disclaims any and all obligations to publicly update or revise any forward-looking statements, whether as a result of new information, future events or for any other reason, except as may be required by law. Important risks and uncertainties about Reliance's business can be found in "Item 1A. Risk Factors" of the Company's Annual Report on Form 10-K for the year ended December 31, 2025 and in other documents Reliance files or furnishes with the United States Securities and Exchange Commission.

Reliance

Unique & Sustainable Business Model

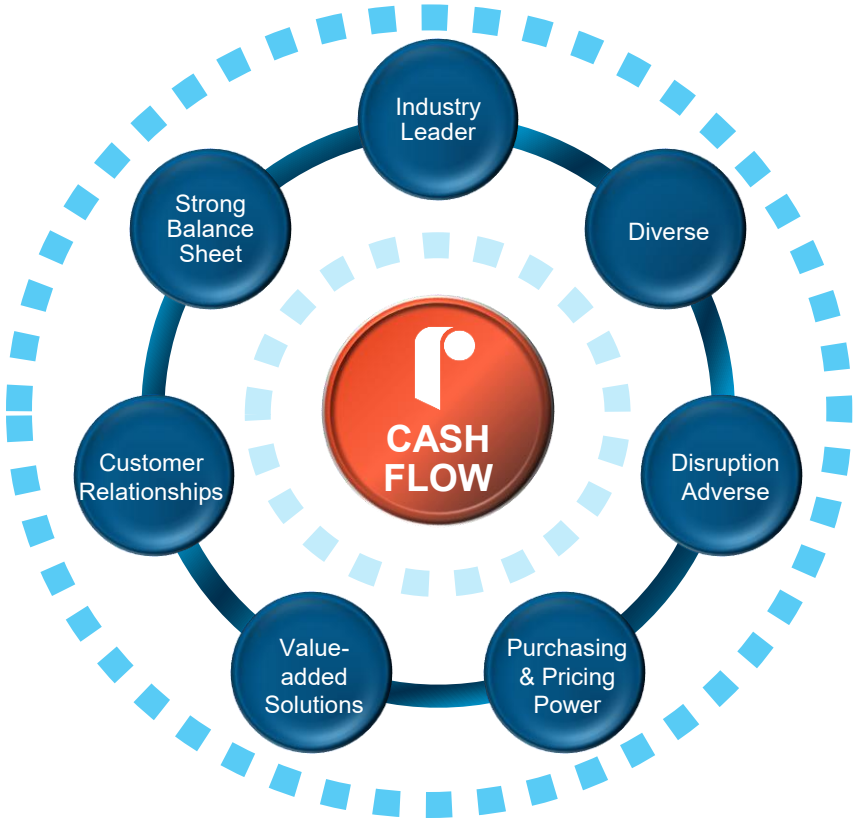

Reliance's strong and consistent cash flows are supported by its deep and wide economic moat, driven by profitable operations and effective working capital management.

Industry Leader: Largest metals service center company in North America

Strong Balance Sheet: Strong liquidity to execute capital allocation strategy while maintaining investment grade ratings

Customer Relationships: 90%+ repeat base; smaller, more frequent ordering often requiring quick delivery

Value-Added Solutions Provider: ~49% of orders in 2025 included value-added processing

Diverse: Mitigates volatility with 100,000+ metal products to 125,000+ customers in diverse end markets

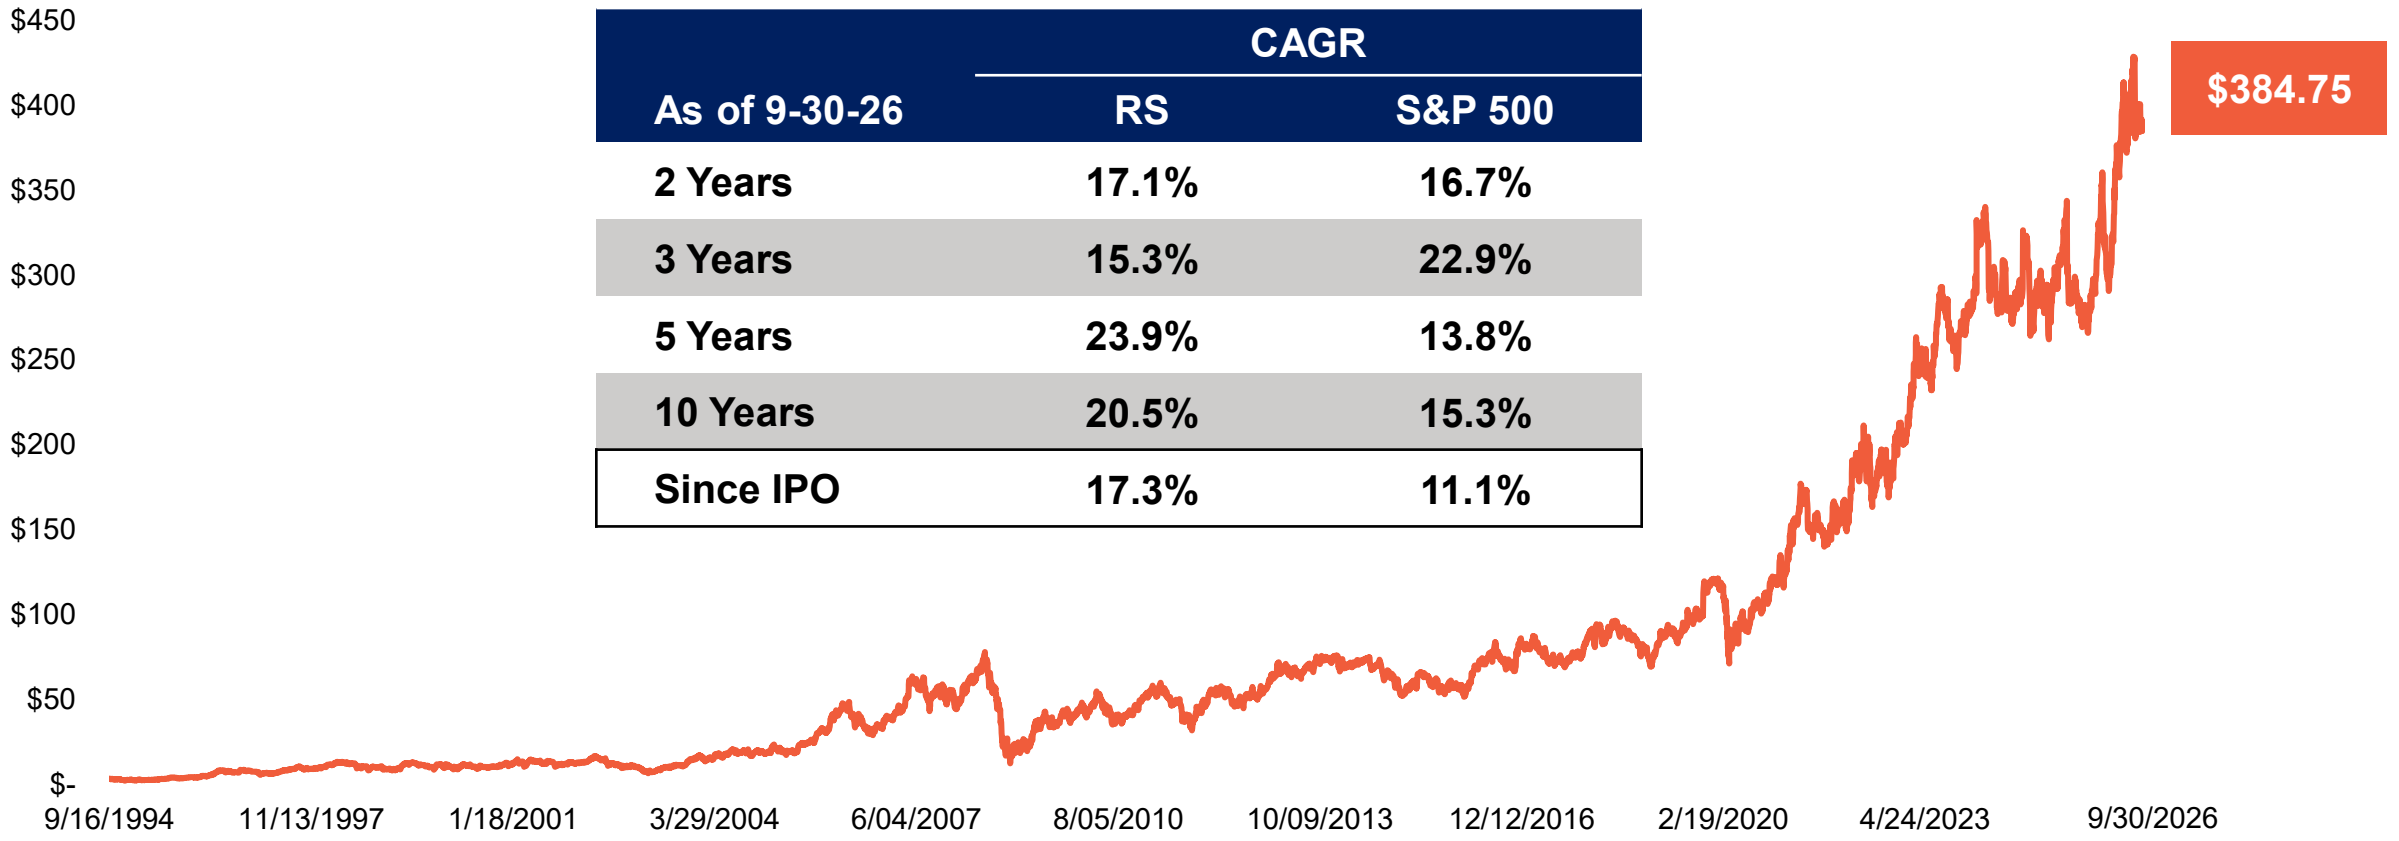

Disruption Adverse: Maintain profitable operations throughout industry cycles

Purchasing & Pricing Power: "Buy domestic" philosophy drives purchasing power and product availability

32 Year Trading History

Reliance's unique and sustainable business model has resulted in compounded annual stockholder returns that have outpaced the S&P 500 since the 1994 IPO.

Q3 2026 Highlights

Record net sales and shipments, sustained pricing strength and market share gains fueled another strong quarter

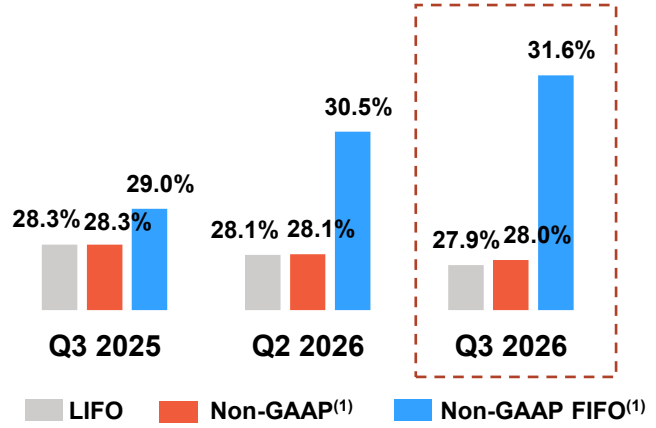

Key Highlights

- **Highest quarterly revenue in Company history**, with net sales of $5.21B, up 43% YoY on higher volumes and average selling prices
- **Continued market share gains,** outperforming broader industry shipment trends with record tons sold up 16% YoY
- Strong profitability, with **non-GAAP FIFO gross profit(1) of $1.65B (+56% YoY)** and **non-GAAP FIFO pretax income up 165% YoY**
- **Non-GAAP EPS of $8.02 increased 120% YoY,** third highest on record; included $0.74 contribution from the U.S. border wall project
- **Strong balance sheet** at 0.8x net debt/EBITDA, supporting disciplined capital allocation, including dividends and opportunistic share repurchases

Reliance

Q3 2026 EPS Performance Drivers

Key Highlights

FIFO Profitability (ex-border wall) +$6.03

- Higher volumes and disciplined execution, capitalizing on elevated pricing (ASP +24.0% YoY) and constrained supply
- Non-GAAP FIFO gross margin ex-border wall expanded to ~32.2% with gross profit per ton up across most product categories

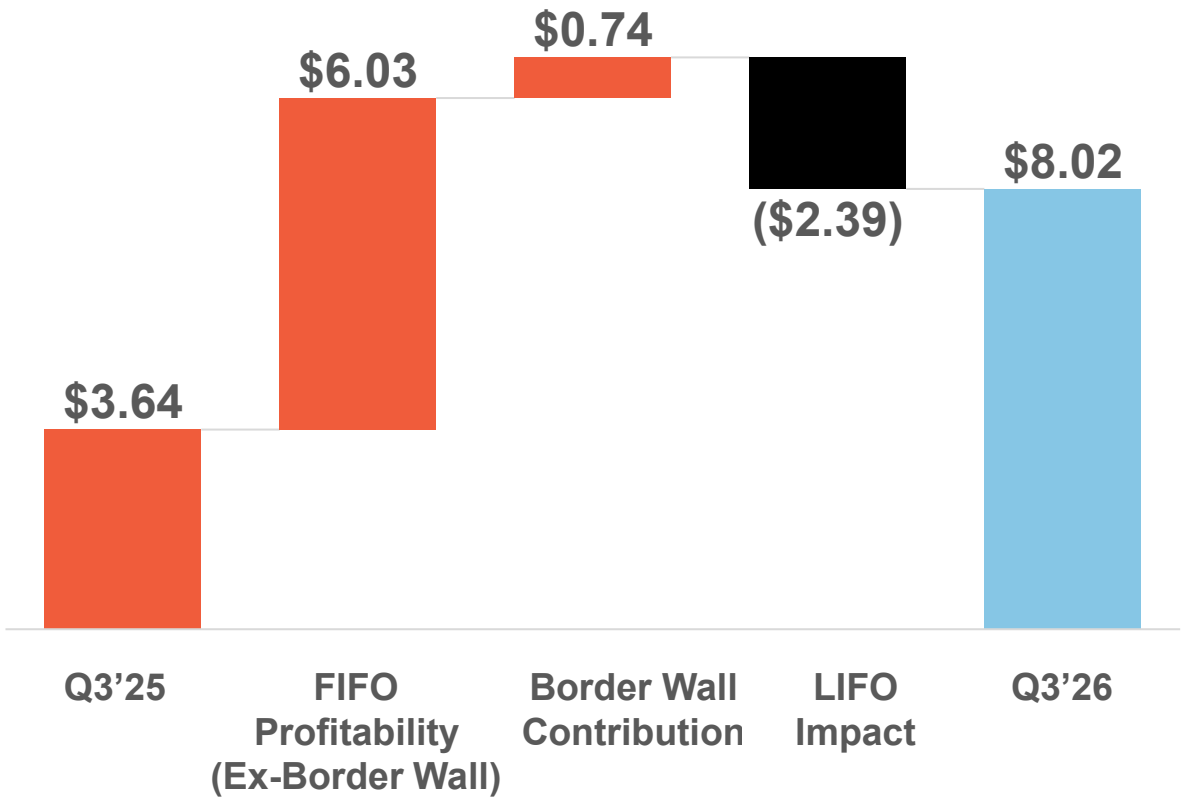

Border Wall +$0.74

- Contributed ~9 percentage points to Q3 2026 tons sold growth of 16%; below-company-average operating costs drove ~40 bps of pretax margin expansion

LIFO Impact -$2.39

- FY26 LIFO outlook increased to $450M from $300M estimated in Q2, resulting in a $112.5M, or $1.64 per share, LIFO true-up in Q3
- $886M LIFO reserve can offset margin pressure from future pricing declines

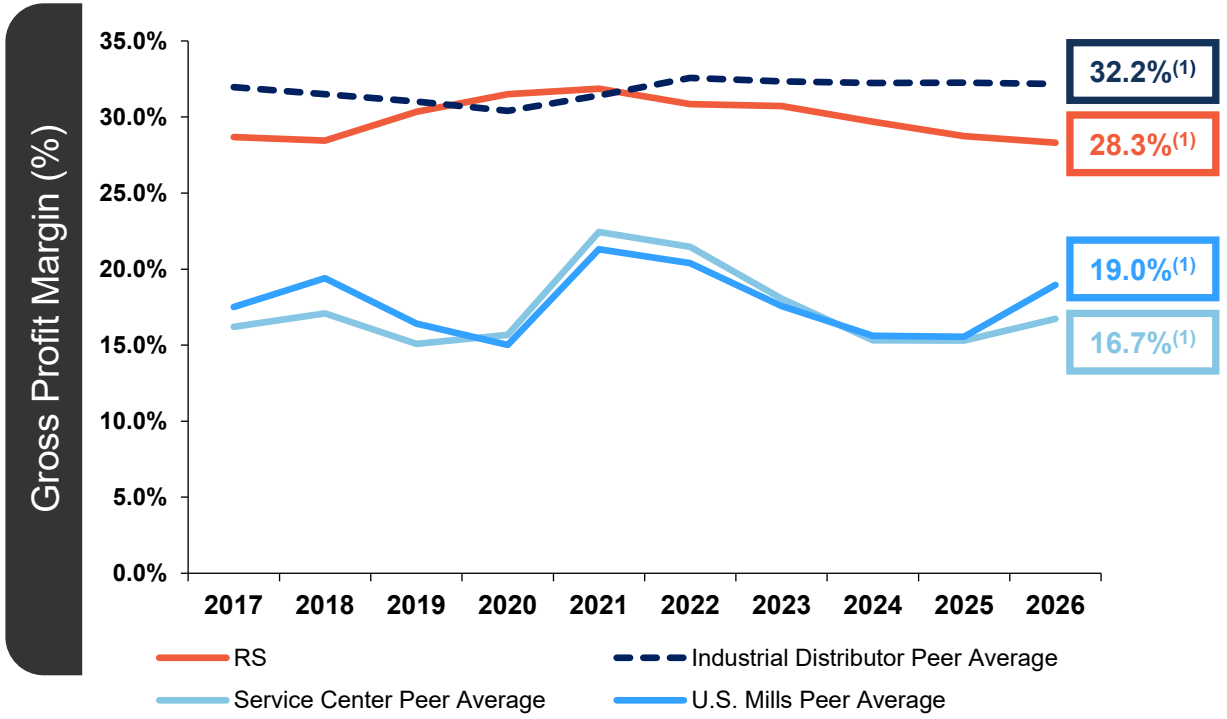

Non-GAAP EPS Q3'25 → Q3'26 Bridge

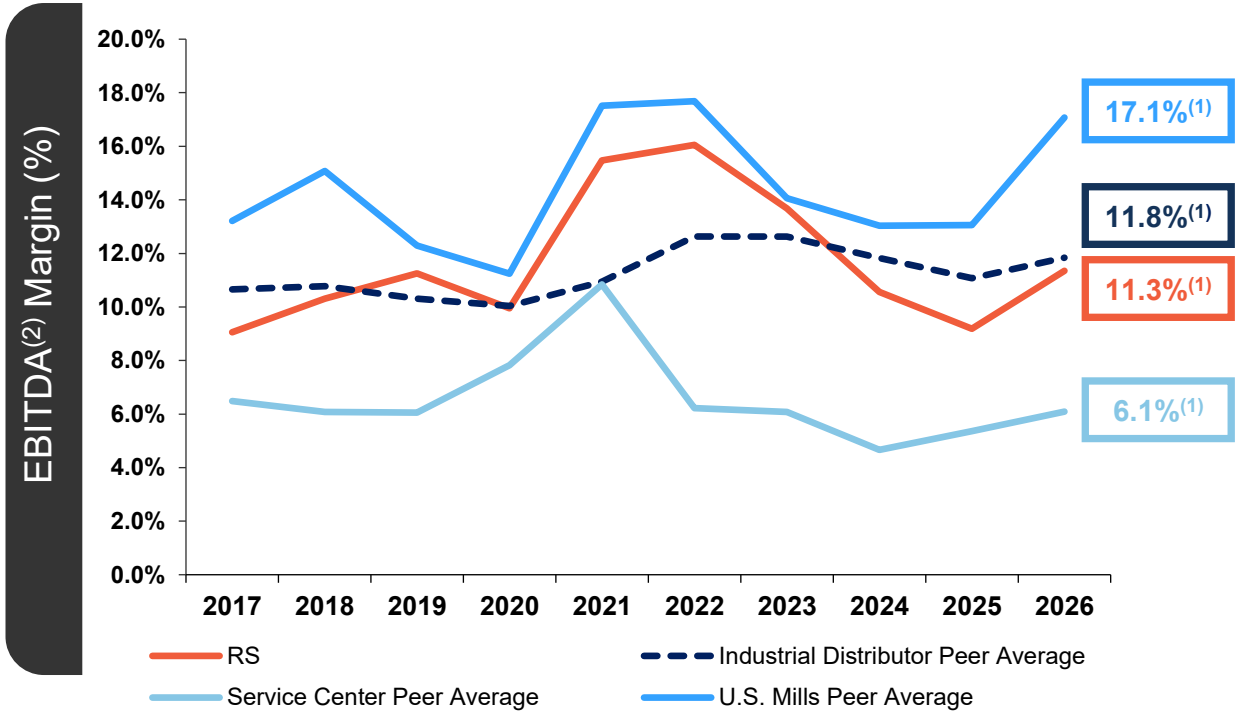

Reliance

Consistently Outperform Peers

Our profitability margins consistently track more closely to industrial distribution companies given business model similarities including diversification, small order sizes, growth in value-added processing and focus on providing value and service to our customers.

Reliance

Ability to Sustain Gross Profit Margins Over Time

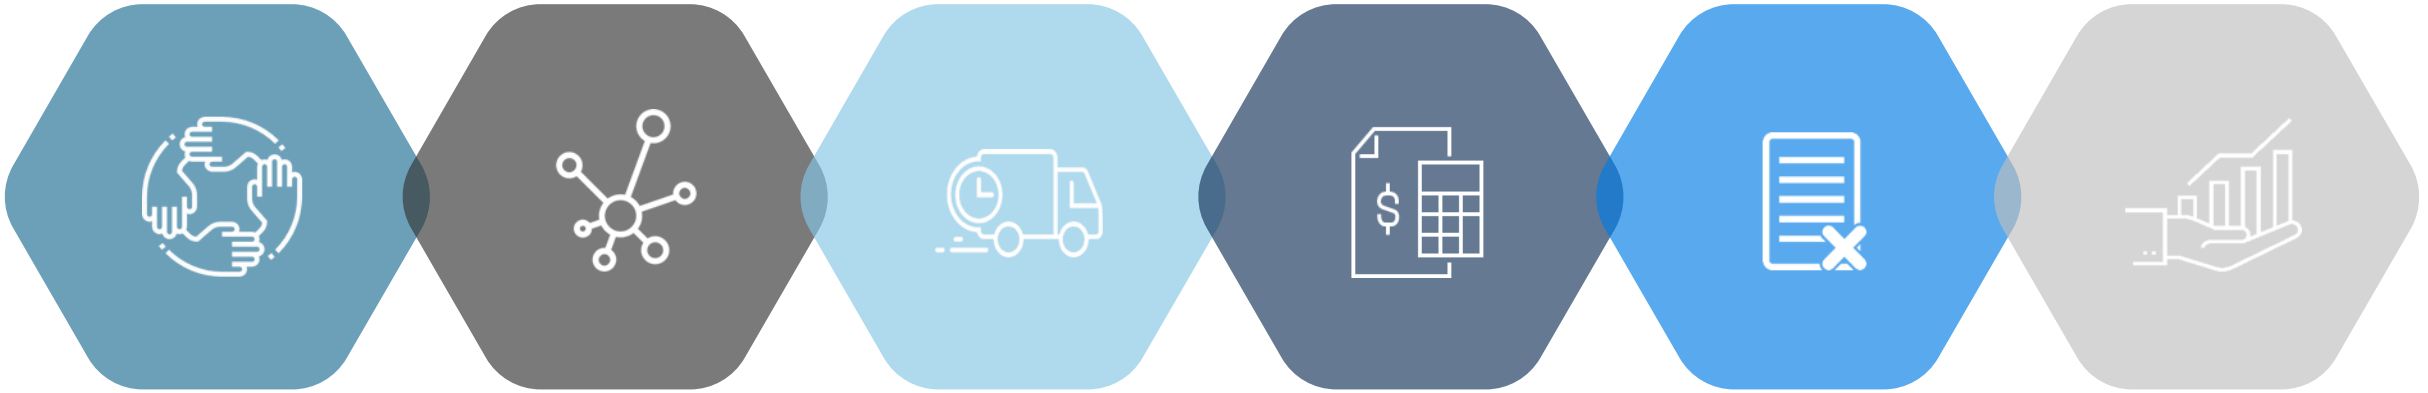

Gross profit margin profile aligned with industrial distribution peers and far surpasses service center peers due to various factors:

- Performance-based compensation structure
- Rich level of talent at middle management level / entrepreneurial approach
- Semi-annual manager meetings to ensure best practices, reward outstanding performance and set new goals
- Product and end market diversification
- Model of focusing on smaller orders with quick turnaround and high levels of service
- Increased levels of value-added processing due to significant investments in capital expenditures in recent years
- Ensuring the true value we provide our customers is reflected in our price

(1) REPRESENTS HISTORICAL LEVELS THROUGH FISCAL 2015.
(2) RELIANCE FIRST INCREASED ITS ESTIMATED SUSTAINABLE ANNUAL GROSS PROFIT RANGE TO 27% - 29% IN FEBRUARY 2017; INCREASED IT TO 28% - 30% IN FEBRUARY 2020; AND INCREASED IT AGAIN TO 29% - 31% IN JULY 2021. THE 29%-31% RANGE EXCLUDES THE IMPACT OF DHS BORDER WALL PROJECT SHIPMENTS.

Our Differentiated Approach

DIVERSIFICATION

of products, end markets and geography reduces volatility

DECENTRALIZED OPERATING MODEL

puts decision making and resources close to the customer

AS-NEEDED INVENTORY MANAGEMENT

and focus on small customers / orders for higher margins vs. large volume

STRONG PRICING DISCIPLINE

by managers in the field to appropriately price the value provided to customers

MINIMAL CONTRACTUAL SALES

helps effectively manage working capital & minimizes impact of changing metal prices

ORGANIC GROWTH & INNOVATION

through industry-leading investments in state-of-the-art value-added processing equipment

Balanced Capital Allocation Philosophy

Growth

Organic:
- Open facilities in new markets and expand existing facilities
- Expand capabilities through addition or upgrading of value-added processing equipment

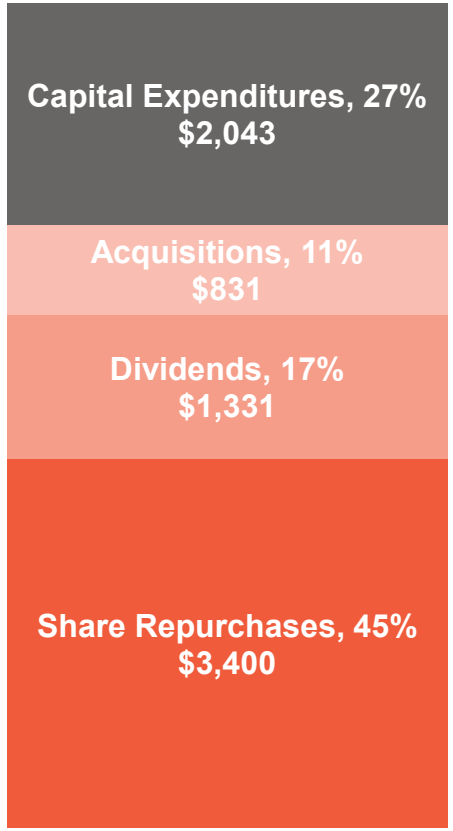

Acquisitions:
- Continue to be a consolidator in a highly fragmented market through strategic acquisitions of well-managed service centers and processors
- Leverage core competencies that may be applicable to adjacent businesses

Stockholder Returns

Dividends:
- Regular quarterly dividends consistent method of returning capital to stockholders
- Most recent increase of 4.2% to $1.25 per share ($5.00 annual) of common stock in the first quarter of 2026

Share Repurchases:
- Opportunistically repurchase shares
- Repurchased $3.4 billion of shares since 2021(2)
- In October 2026, the Company's Board of Directors increased the share repurchase authorization to $2.5 billion without a set expiration date

Investment Highlights

- ✓ **RESILIENT, DIVERSIFIED MODEL:** Broad diversification across products, customers, end markets, and geographies, supported by a decentralized network of more than 300 locations, reduces volatility and helps sustain profitability through economic cycles.

- ✓ **PURCHASING POWER:** Strategically sourcing the majority of our raw materials from longstanding domestic mill partners enables significant purchasing power and product availability in all market conditions.

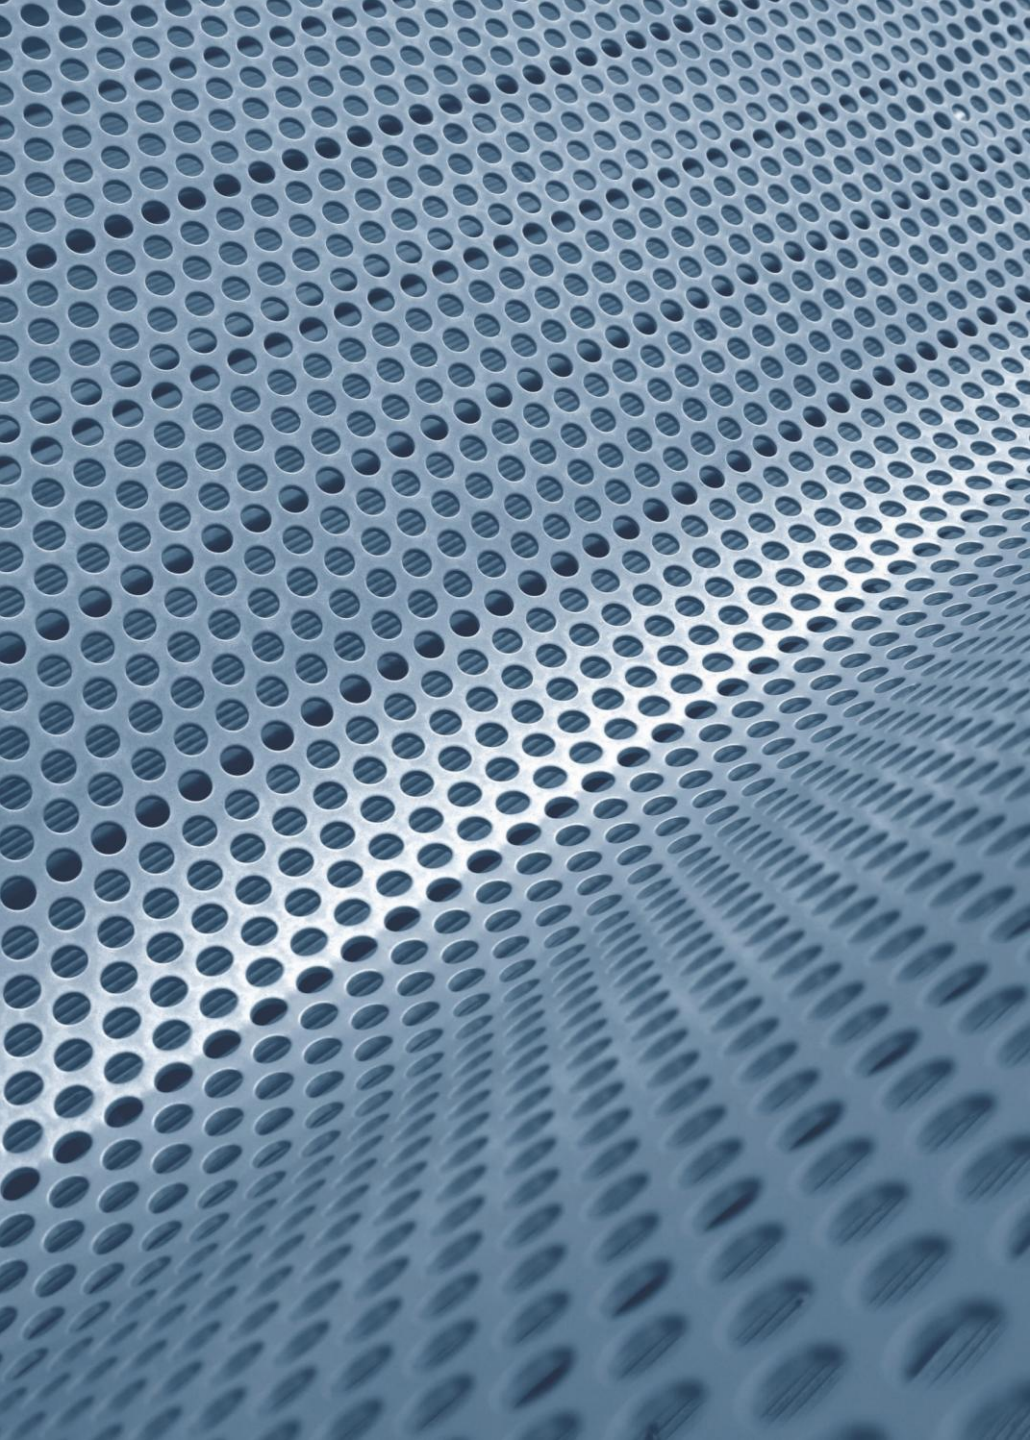

- ✓ **INDUSTRY-LEADING PROFITABILITY:** We are able to sustain industry leading profitability levels resulting from our smart, profitable growth strategy and investments in value added processing capabilities.

- ✓ **STRONG BALANCE SHEET:** Our low-leverage balance sheet combined with strong cash generation provides significant financial strength. Our countercyclical cash flow profile strengthens liquidity during market downturns and supports continued investments in growth and shareholder returns throughout the business cycle.

- ✓ **CONSISTENT STOCKHOLDER RETURNS:** We have a longstanding track record of delivering attractive shareholder returns driven by disciplined capital allocation, steady cash flow generation, and ongoing reinvestment in the business.

Non-GAAP Information

In addition to GAAP data, Reliance (RS) may also disclose in this presentation certain non-GAAP and non-GAAP-FIFO financial information (including, without limitation, results of operations, EBITDA and margin, gross profit and margin, free cash flow, net income, diluted earnings per share (EPS), operating expenses, operating income, pretax income, net debt- and total debt-to-EBITDA, financial ratios, operational data, etc.) that includes certain adjustments or excludes certain charges and gains. Management believes that this non-GAAP information provides investors with additional information to assess Reliance's operating performance by making certain adjustments or excluding certain costs or gains and assists investors in comparing our operating performance to prior periods. Management uses this non-GAAP information, along with GAAP information, in evaluating its historical operating performance. The non-GAAP information in the foregoing presentation was not prepared in accordance with GAAP and may not be comparable to non-GAAP information used by other companies. The non-GAAP information should not be viewed as a substitute for, or superior to, other data prepared in accordance with GAAP. A reconciliation of GAAP to non-GAAP financial data can be found in Reliance's third quarter 2026 earnings release issued on October 21, 2026.

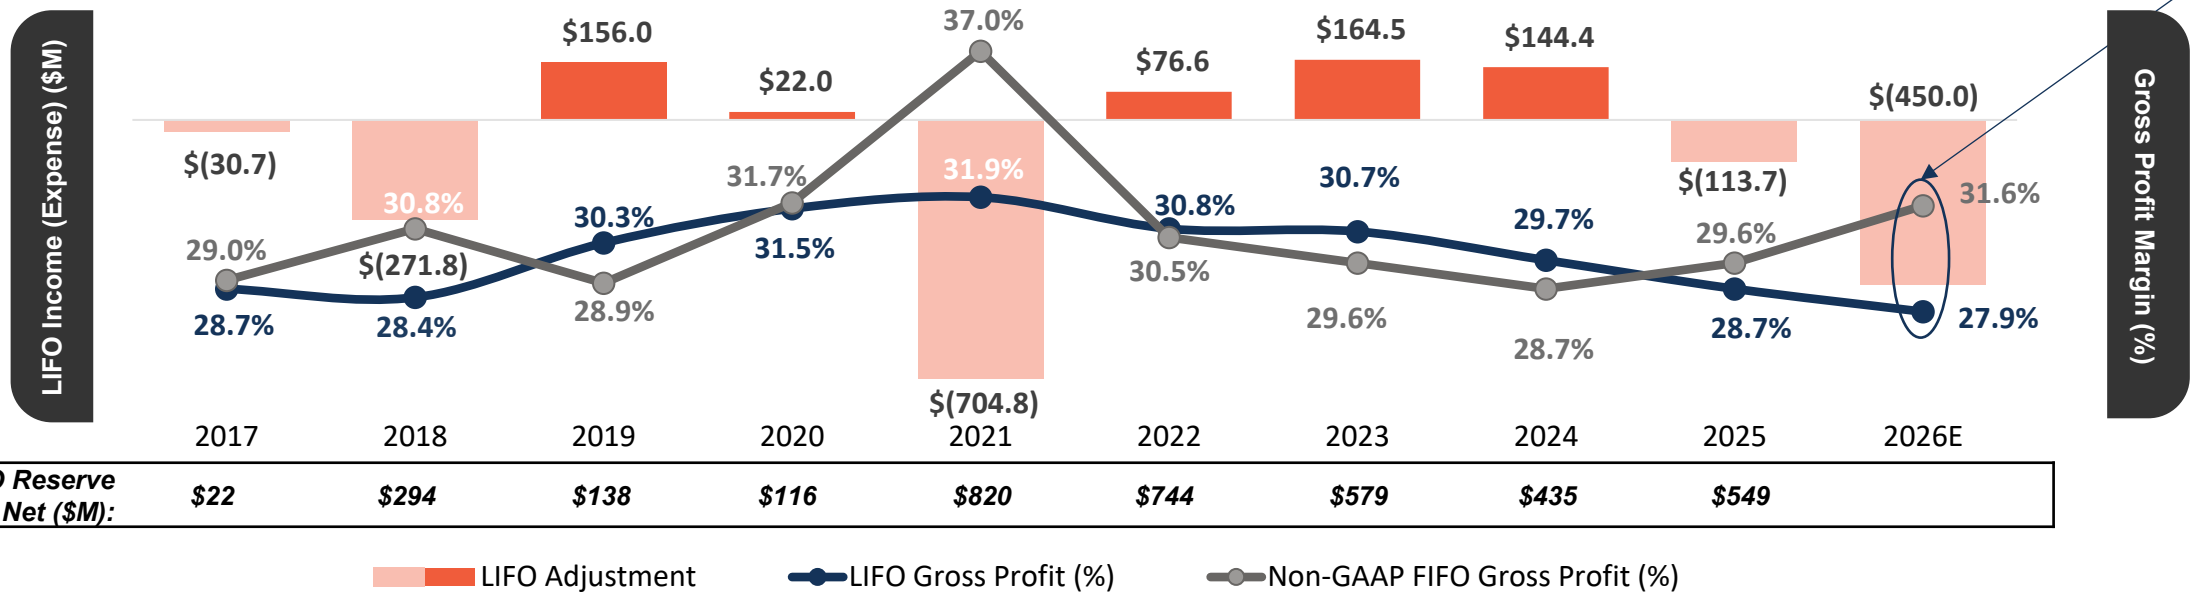

Appendix

LIFO Inventory Valuation Method

- LIFO adjustments reflect cost of sales at current replacement costs
  - **Periods of rising metal prices: removes inventory gains** from results (recognize LIFO expense, a decrease to pretax income)
  - **Periods of declining metal prices: removes inventory losses** from results (recognize LIFO income, an increase to pretax income)
- Cost of sales included LIFO expense of $337.5 million, or $4.91 per diluted share, year-to-date as of September 30, 2026
- LIFO reserve of ~$886 million as of September 30, 2026 can benefit earnings in future periods that include declining metals prices

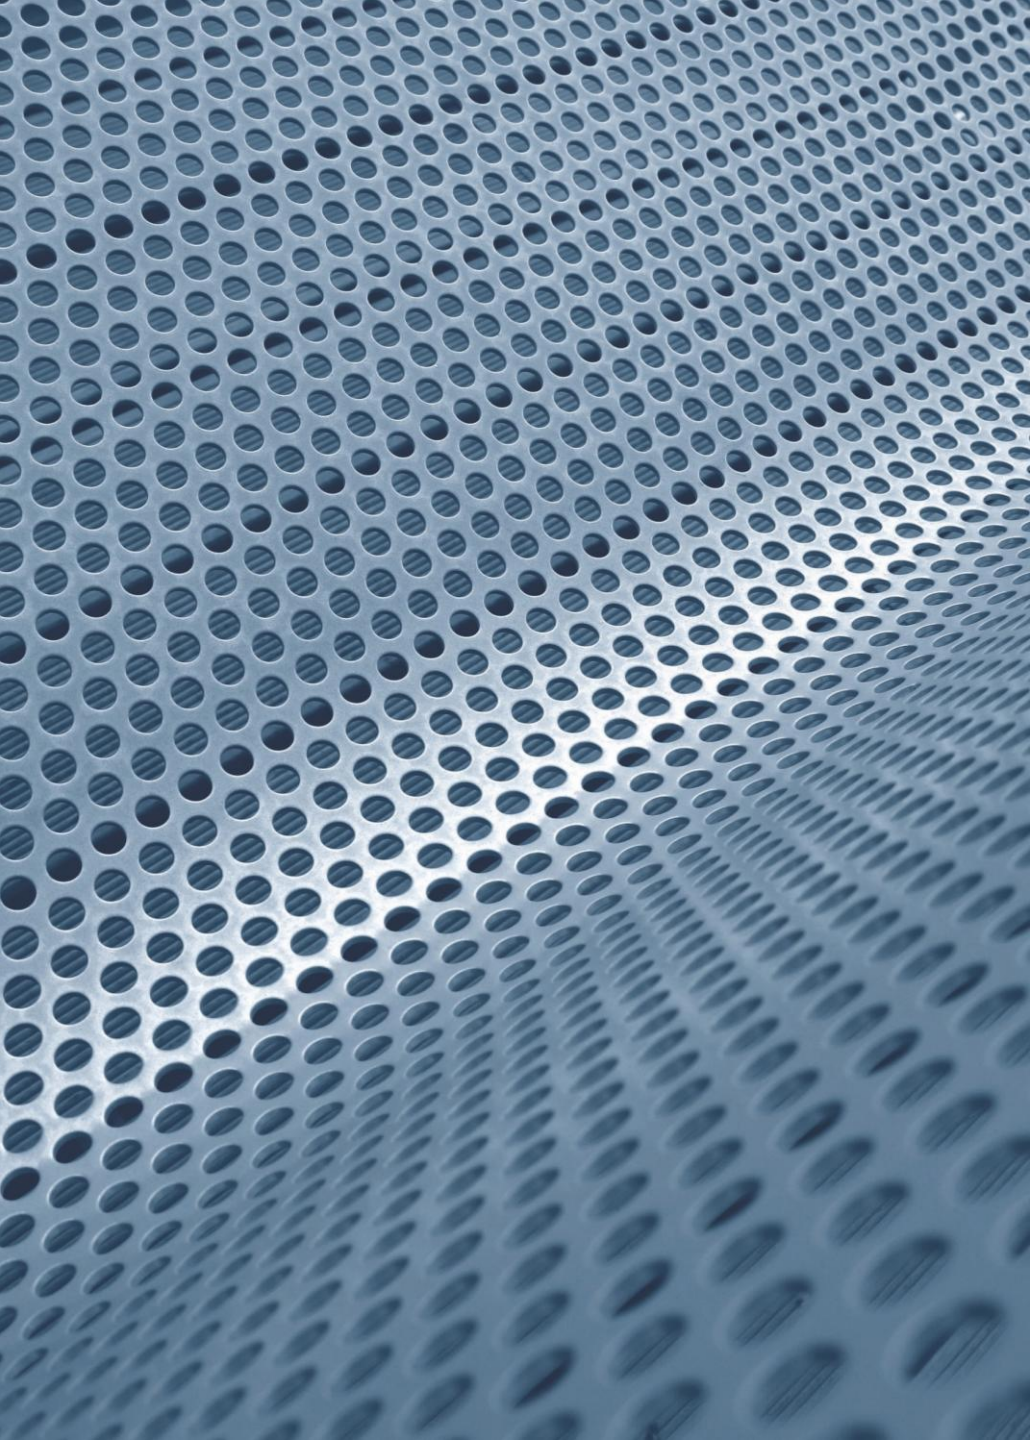

LIFO inventory valuation limits gross profit margin volatility

The Role of a Service Center

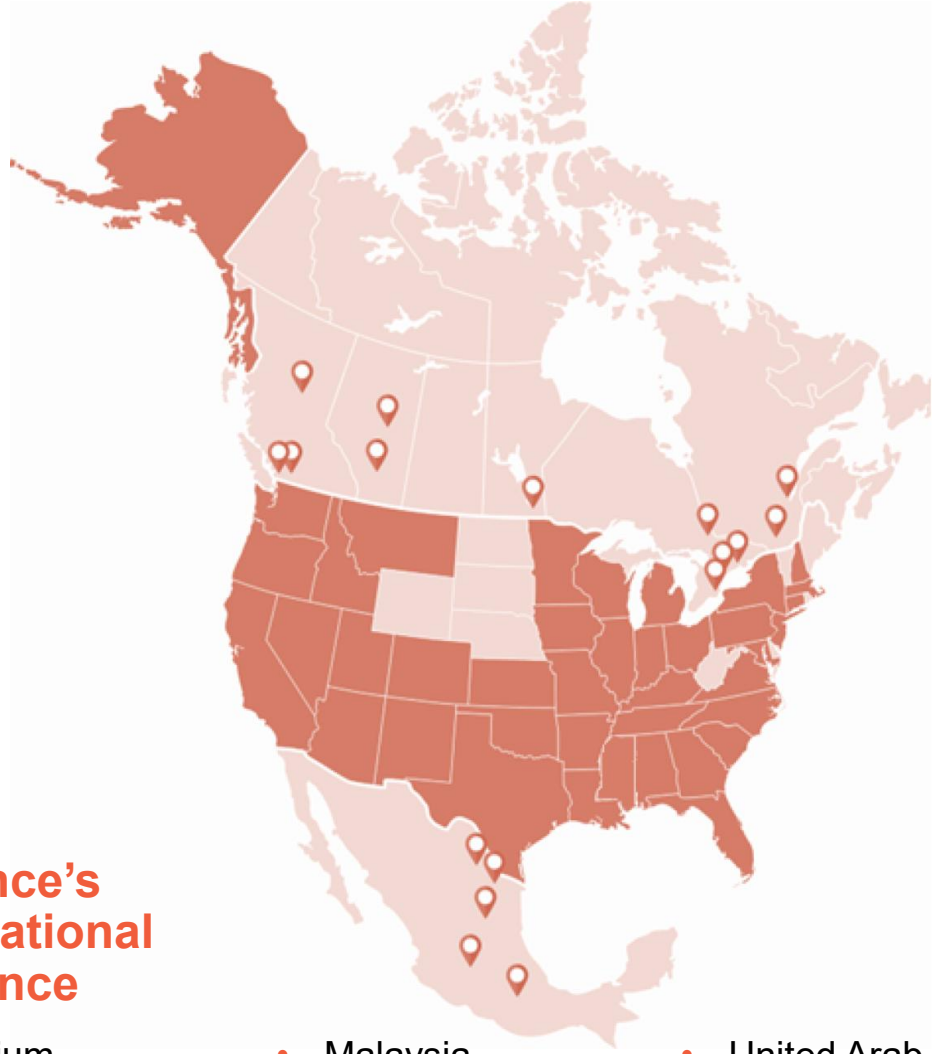

Service centers provide value-added services that lower costs, increase efficiencies and improve quality.

- **Service centers are not producers of metal**
- Purchase products from metals producers (mills) and provide value-added services to process metals to customer specifications
- Utilize specialized equipment to process metals, which requires high-volume production to achieve cost efficiencies
- End customers generally not willing or able to invest in the necessary technology and equipment to process metals
- Customers purchase from service centers to obtain value-added metals processing, readily available inventory, reliable and timely delivery, flexible order size and quality control

Where We Play

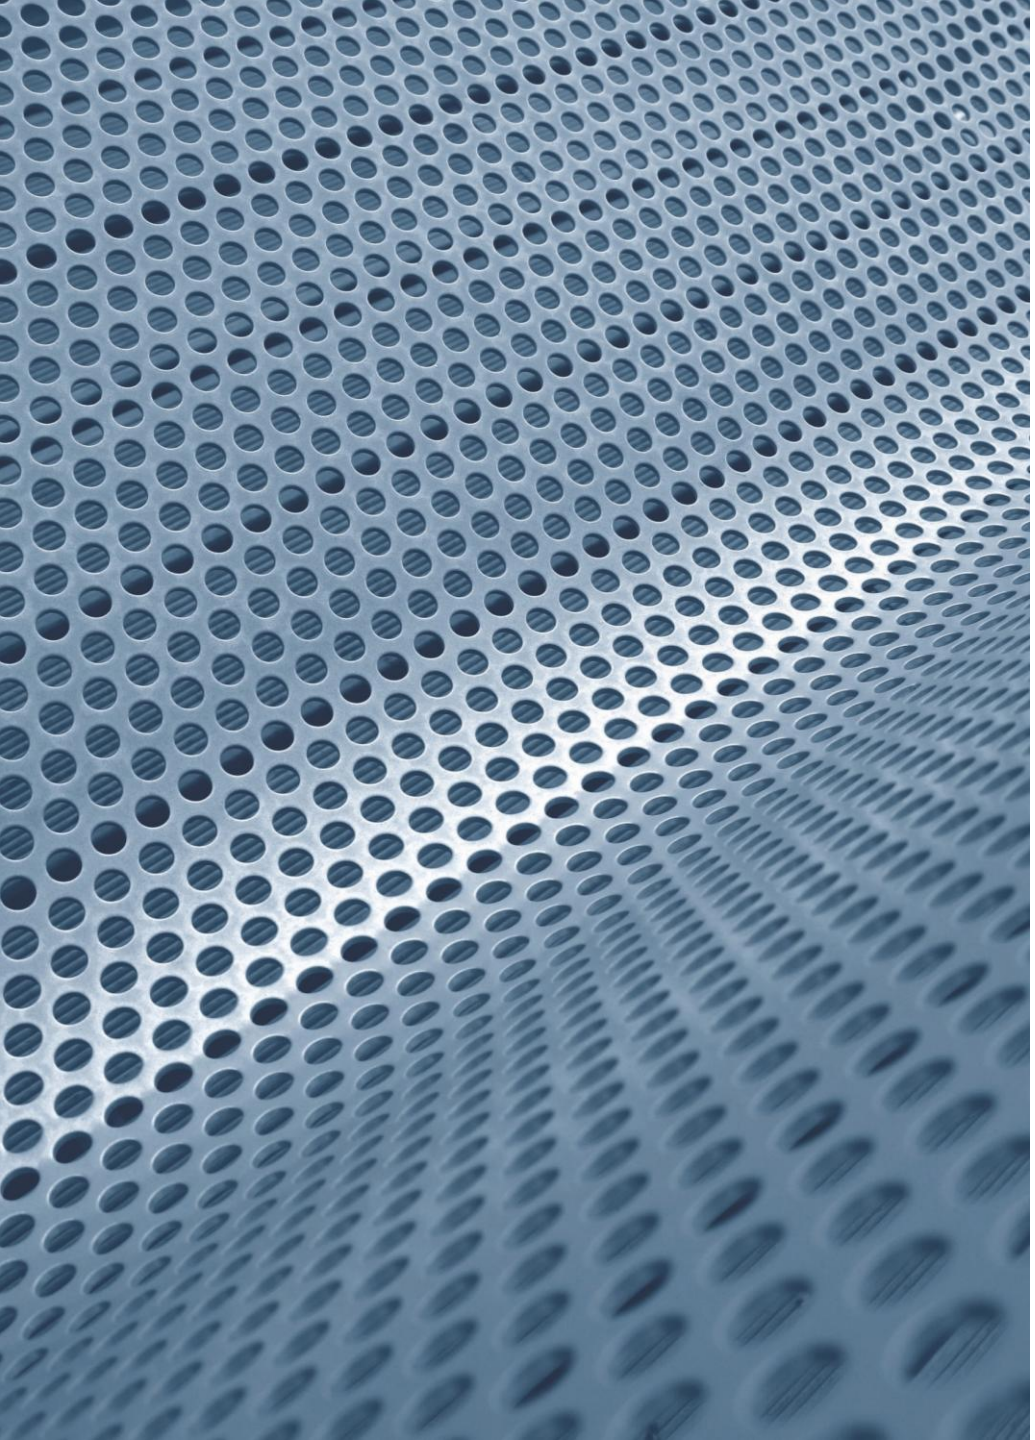

- Strategically located near metals producers (mills) and customers
  - Ensures as-needed logistics and reduced carbon footprint
- ~310 locations in 41 states and 10 countries outside of the U.S.
- Most customers located within a 200-mile radius of our service centers
- Proprietary fleet of approximately 1,800 trucks provides quick turnaround, when-needed deliveries

ESG

Corporate Responsibility & Sustainability

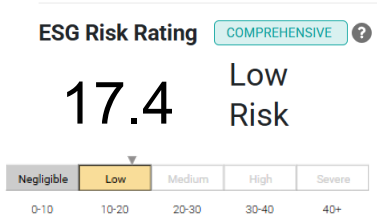

Based on our materiality assessment, the most significant ESG issues for Reliance include: employee health and safety; emissions from company-operated trucks; and overall energy usage.

Employee Health & Safety

- The health, safety and wellbeing of our employees and communities is our most important core value
- 2025 Total Recordable Incident Rate (TRIR) of 1.62 significantly lower than the 2024 Metals Service Center Institute median of 3.19
- 2025 Average USDOT Recordable Accident Rate(1) of 0.61; reflects safe driving practices
- Committed to reducing the number of serious injuries and fatalities to zero
- 2025 Lost Time Incident Rate (LTIR) of 0.67; reflects improvement

Sustainability Ratings/Disclosures

- Sustainalytics ESG rating improved 2.4 to 17.4(2) (Low Risk)

- EcoVadis Committed Badge earned by exceeding the 45-point threshold, signifying good performance under Ecovadis' methodology
- Committed to engagement with external ESG rating and disclosure platforms, including MSCI, CDP, and S&P Global, to support the accuracy, transparency, and consistency of our publicly available ESG information

NOTE: PLEASE REFER TO THE COMPANY'S WEBSITE AT RELIANCE.COM/ENVIRONMENTAL-SOCIAL-AND-GOVERNANCE FOR ADDITIONAL DETAILS REGARDING ITS CORPORATE RESPONSIBILITY AND SUSTAINABILITY INITIATIVES.

(1) WE HAVE NOT IDENTIFIED A UNIVERSALLY ACCEPTED AND ANNUALLY UPDATED BENCHMARKING STANDARD FOR A DOT RECORDABLE CRASH RATE.

(2) AS OF JULY 31, 2026.

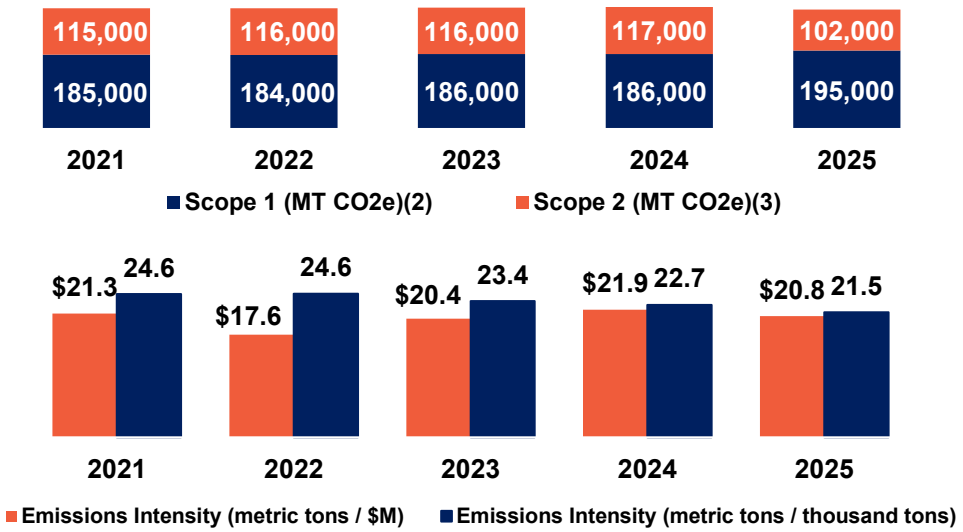

Corporate Responsibility & Sustainability (Continued)

Our metals distribution and processing operations by nature do not have a significant impact on the environment. We are not a metals producer or mill – we operate metal service centers. Circularity and low emissions are core to Reliance's business model.

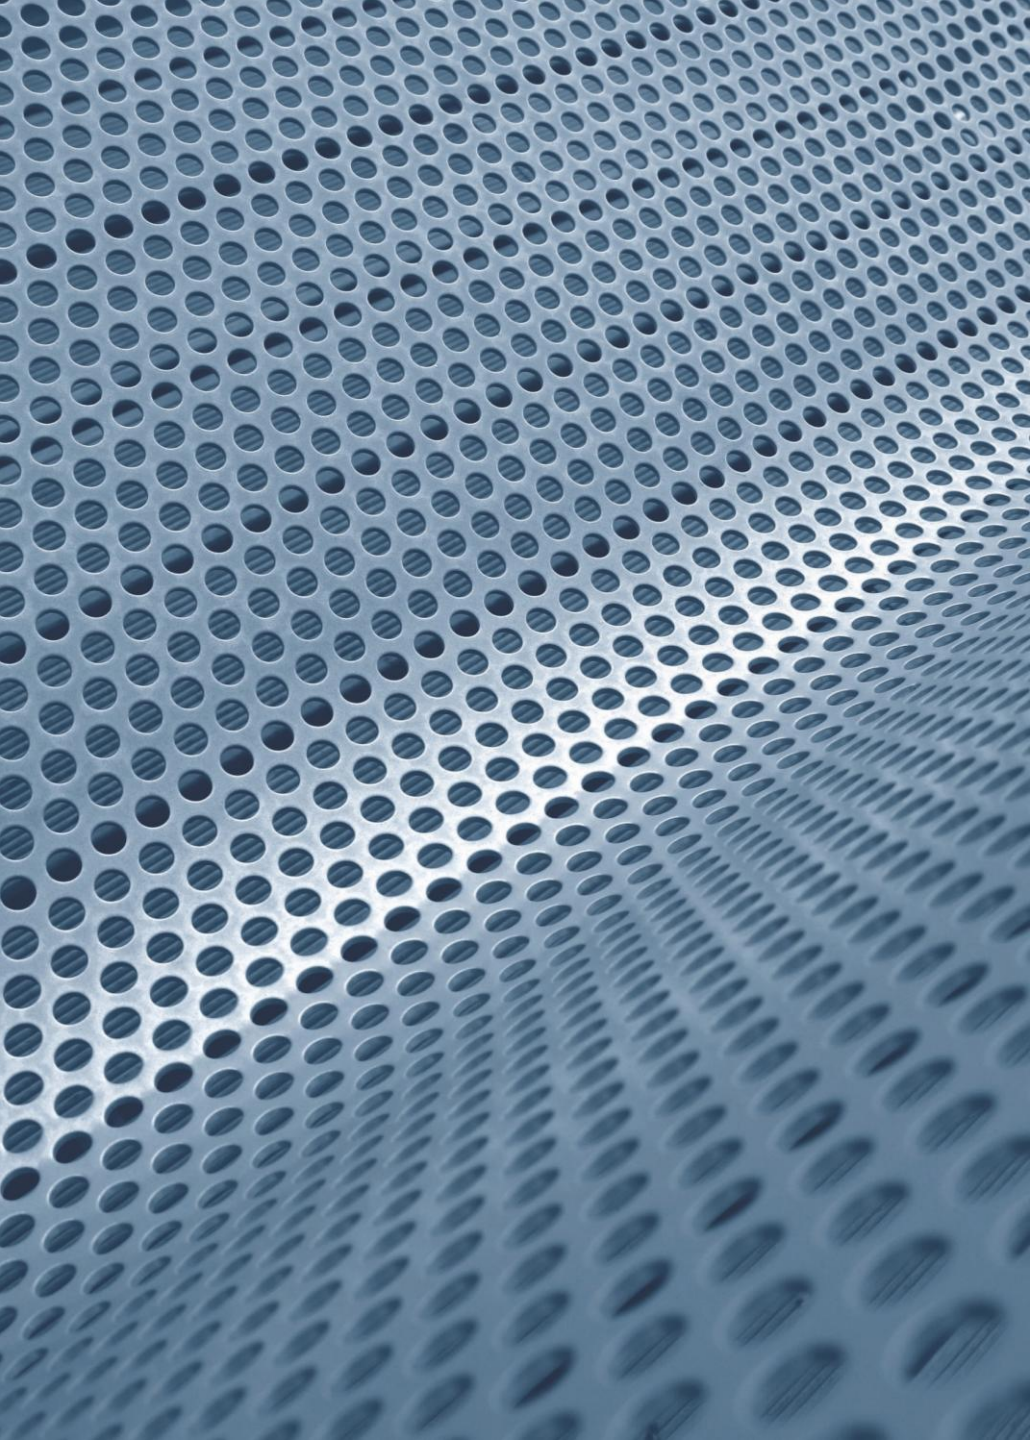

Environmental Impact

- Aluminum and steel products are inherently sustainable and can be 100% recycled without loss of quality
- Reintroduced 259,000 tons of recycled scrap material into the manufacturing life cycle in 2025
- Scope 1 emissions(2) represent direct greenhouse gas (GHG) emissions resulting from fuel consumed to operate our fleet of ~1,800 trucks, ~310 locations and 39.2 million square feet of owned and leased facility square footage
    - As a distributor, roughly 73% of our Scope 1 emissions arise from fuel consumption for product delivery
- Scope 2 emissions(3) represent indirect GHG emissions from purchased electricity across our locations

GHG Emissions & Intensity(1)

(1) SALES INTENSITY, REPORTED AS MT CO2E/$M NET SALES AND VOLUME INTENSITY, REPORTED AT MT CO2E/K TONS SOLD AND TONS TOLL PROCESSED.
(2) SCOPE 1 EMISSIONS (IN MT CO2E) ARE CALCULATED BASED ON FUEL USAGE AND PUBLICLY AVAILABLE FUEL EMISSIONS FACTORS, INCLUDING THOSE PUBLISHED BY THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY (*"EPA"*).
(3) SCOPE 2 EMISSIONS (IN MT CO2E) ARE CALCULATED BY APPLYING PUBLICLY AVAILABLE EMISSIONS FACTORS, INCLUDING THOSE PUBLISHED BY THE EPA, TO PURCHASED ELECTRICITY.
